Uni-Print Management Solutions by UniPrint

UniPrint has teamed up with ComDoc to provide Xerox multi-functional devices (printer/copier/scanner/fax) and to maintain desktop printers university-wide. Uni-Print Management Solutions is projected to save your department at least 25% in copying and printing expenses.

- The cost per impression includes ALL related costs, except paper, including installation, training, supplies, and maintenance.
- Automatic supply replenishment based on monitored usage levels.
- Quick delivery of new equipment.
- On-site service and training.
- Easy internal billing; no purchase orders or invoices to manage.
- Additional savings can be achieved by allowing Uni-Print Management Solutions to optimize the multi-functional devices and printers within your department. We can perform an audit of your area that shows your current costs and the savings that can be realized by right-sizing your environment.
