

Site Licensed Software via OIT (Microsoft info and more)

[Ohio State Adds New Microsoft License Terms](#)

The [Office of Information Technology](#) offers a variety of public domain, bulk purchase, and site-licensed software programs to members of the OSU community. In an effort to provide a convenient and timely distribution method, selected software is available for downloading from the [Software Downloads](#) web site.

- Greatly reduced prices due to bulk purchase plans and/or educational discounts
- Convenient and timely distribution of selected software by downloading from the [Software Downloads](#) web site

Pricing and Ordering Information

- Access to software available from this site is restricted to current Ohio State University faculty, staff, and students. A valid OSU Internet username is required for authentication.
- Additional site-licensed software can be obtained in 512 Baker Systems Engineering. Some software is provided on a media exchange/ loan out basis, while other packages can be purchased at discount.
- Information on [Microsoft software](#) (for institutional and personal use) is available from OIT.
- Call 688-HELP if you need more information on getting software not available from the [Software Downloads](#) site.
