

Symantec Altiris Client Management Suites

Symantec Altiris Client Management Suites

Bundle price includes Symantec Altiris Client Management Suite Levels 1 and 2 and the first year of Upgrade Protection.

- **Client Management Suite (Level 1)** is an easy-to-use systems management solution that helps reduce the total cost of ownership for desktops, notebooks, and handheld devices. Developed for IT professionals who manage computing devices on a regular basis, the suite enables administrators to deploy, manage, and troubleshoot systems from virtually anywhere. **Components: Deployment Solution™ for Clients (which includes PC Transplant stand-alone and Solution), Inventory Solution®, Software Delivery Solution™ for Clients, Application Management Solution, Application Metering Solution, Carbon Copy® Solution, Patch Management Solution™ for Clients, and Wise Toolkit** (Application Management, Application Metering, Carbon Copy Solutions and Wise Toolkit not sold separately.) Fractional licenses are not issued.
- **Client Management Suite (Level 2)** is an add-on to Client Management Suite (Level 1), providing local backup and recovery to a protected area on the local hard disk and web based real-time remediation. Special Purchase Requirement: Client Management Suite (Level 1) is a prerequisite for purchasing this suite. **Components: Local Recovery Pro for Clients, Real-Time System Manager (Formerly Web Admin Solution for Windows.), Wise Package Studio-professional, AuditExpress for Clients and Software Virtualization Solution.** (Local Recovery Pro for Clients and Real-Time System Manager are not sold separately.) **Client Management Suite (Level 2) includes one (1) Wise Package Studio-Professional Edition license for every 1,000 nodes of Client Management Suite (Level 2) purchased. (Note: Wise Package Studio is not included on orders less than 1,000 nodes.) Fractional licenses are not issued.**
