Clean Harbors Environmental Services (Bulk Chemical Waste)

Items Offered:
Bulk Chemical Waste Management

Company info
Clean Harbors has been a trusted source for environmental, energy and industrial services since 1980. Because of Clean Harbors’ commitment to health and safety, and quality conscious philosophy, unique expertise and capabilities, and reputation for keeping our customers’ needs first, customers perceive them as the leader in the environmental services industry. They are committed to providing their customers with the highest quality environmental services and to preserving our natural environment.

Benefits to OSU
Clean Harbors understands your requirements to maintain full compliance with all regulations, minimize liability, and reduce waste and emissions. Their services and infrastructure encompass the widest range and provides customers with one source for solving their environmental, energy and industrial service needs.

Shred-It USA LLC
(Document Destruction Services)

Items Offered:
Document Destruction Services

Company info
The Columbus Shred-it franchised operation was founded in September, 1997. Shred-it Columbus and all facilities of Shred-it are certified by NAID (National Association of Information Destruction). The NAID Certification Program establishes standards for a secure destruction process including such areas as operational security, employee hiring and screening, the destruction process, responsible disposal and insurance.

Benefits to OSU
- Shred-it uses cross cut method of shredding which is far superior to strip shredding
- Shred-it can shred in 19 minutes what would take a typical office shredder 10-12 hours
- Shred-it can shred non-fiber-based material. No sorting required
- Shred-it has the ability to shred any type of electronic media
- Shredded remains are recycled to make new products
- A certificate is issued at the end of each year showing how many trees were saved
- Shred-it has several different size containers for clients at no charge
- For clients that request the destruction of extremely sensitive information, all material can be double shredded
- The Shred-it facility is on 24-hour lockdown, with kiosk entry system and security cameras located throughout the facility

Stericycle (Medical Waste)

Company info
Stericycle, Inc. is an international, integrated service corporation that provides comprehensive, environmentally responsible, and cost-effective management of regulated waste for a variety of customers in the healthcare, pharmaceutical, and related industries. Founded in 1989, they are the world’s leading provider of regulated waste management services, currently servicing over 550,000 customers in the United States, the United Kingdom, Mexico, Puerto Rico, Canada, Ireland, Argentina, Chile, and Romania. Stericycle has the infrastructure, experience, and track record in developing and launching custom, multi-country solutions. In addition, Stericycle tailors programs to meet the demands of large waste generators such as hospitals, research laboratories, and pharmaceutical companies offering institutional medical waste management and consulting services; Bio SystemsTM sharps management services; a variety of products and services for infection control; and our regulated returns management services for expired or recalled health care products. For small waste generators such as physician offices and clinics, we also offer our Steri•Safe® OSHA compliance program, which includes regulated medical waste treatment and disposal; HIPAA compliance programs; a variety of products and services for infection control; and pharmaceutical returns services for expired or recalled pharmaceuticals.

Benefits to OSU
• Stericycle provides safe, cost-effective, convenient, and customizable methods for medical waste and sharps disposal.
• Their highly qualified team of Environmental Safety and Health professionals is dedicated to compliance, and Stericycle customers are able to take full advantage of the extensive knowledge and experience these folks bring to the table.
• They have an extensive global network of transportation, collection, transfer, and treatment facilities ensures seamless and uninterrupted service.
• Their commitment to premier customer service is unsurpassed in the industry. They will do what it takes to ensure you are receiving the best service by anyone, anywhere.
• They continue to invest in the development of advanced systems and technologies, and set the standard for environmental responsibility.

Ordering info
• Departments obtain quotes from the account representative, create a standard purchase order and indicate the contract number on the purchase order.

Pricing
• Discounted pricing.

Elytus
(Trash and Hauling)

Items Offered:
Trash Hauling Services

Company info
Founded in 2007, Elytus believes we should Waste Nothing. Not the talent of our people, resources of our environment or dollars in our budgets. As such they implement WINstream, their web-based software platform and add their professional services to assist your organization in managing your waste and recycling programs to become more operationally efficient, cost effective and environmentally sustainable. Today Elytus has grown to represent 47 national chains across over 10,000 commercial locations utilizing a network of 5000 service vendors in all fifty states, Canada and Puerto Rico. Reach out to Elytus today to learn more about how they can help you Waste Nothing.

Benefits to OSU
• Procurement is performed on behalf of OSU (No procurement needs from OSU staff).
• Centralized Purchase Order for all waste related services (equipment, hauling, recycling etc.)
• Consolidated Invoicing for all waste related services (no more individual invoices from vendors).
• Dedicated customer service representative regardless of the volume of vendors or services.
• Web-based Platform including all contracts, invoices, and real-time status on service requests.
• On Demand reporting of all sustainability, cost and service related metrics.
• Waste Characterization studies showing you the material make up of your waste stream.
• Zero Waste strategy planning and execution services.
• Equipment purchase and lease return on investment planning.
• Equipment maintenance services.
• Recyclables commodity purchasing

Dayton Industrial Drum, Inc.

(Waste Containers)

Items Offered:
Hazardous Waste Containers

Company info
Dayton Industrial Drum, Inc. is family owned and operated since 1972. They are a leader in industrial packaging products. They specialize in new and reconditioned steel, plastic, fiber drums, and totes/IBC. They supply UN/DOT specification drums and a complete line of parts, tools, equipment, and accessories for your entire drum handling requirements. They handle all your empty drum recycling needs. Their program provides a permanent solution for environmentally sound drum disposal. They strive to be current with all UN and EPA specifications and the critical demands of environmental services and hazardous waste management.

Benefits to OSU
- Work closely with our customers to deliver cost effective, tailored packaging solutions for all your applications.
- Focused on anticipating customer needs and exceeding expectations.
- Quality responsive customer service, whether it’s for a single item or a truckload.
- Stock a wide variety of new and reconditioned drums and intermediate bulk containers
- Close inventory control, so you always have what you need – when you need it.
- They will never compromise on quality.
- Offer emergency shipments – day, night, weekends, and holidays.
- Same day delivery service.

Questar

(Waste Containers)

Items Offered:
Hazardous Waste Disposal Containers

Company info
For more than 20 years, Questar has been the leading provider of UN certified Performance Oriented Packaging for the waste industry. If you need a drum, absorbent, cubic yard corrugated box, poly-woven bag, lab packer, or lamp collection containers, Questar is your source. In addition, Questar has developed an extensive national network of manufacturers and suppliers to ensure that inventory availability is never an issue. They manage all logistics related to container orders through their 9 strategic national warehouses. Their professionally trained team has extensive knowledge of the waste industry and how to best design, source, and supply clients their waste packaging needs for movement of all waste streams. Questar also maintains all required DOT and EPA certifications for each container in addition to closure instructions and DOT Special Permit application and renewal.

Benefits to OSU
- Sales and Service team is dedicated to ensuring you receive your packaging needs at the right location, at the right time, and at a competitive price.
- Trained team of service professionals has the knowledge to provide efficient and cost effective solutions to all of your packaging needs.
