ChemTreat, Inc.

Items Offered:
• Water Treatment Chemicals & Repair

Company info
Incorporated in 1968 by Harrison R. Tyler and William P. Simmons, ChemTreat, Inc. is one of America’s most rapidly growing industrial water treatment companies. Continued expansion has allowed ChemTreat to evolve into one of the world’s largest providers of water treatment products and services.

To enable their expansion and continued growth, ChemTreat was acquired by Danaher Corporation in July 2007. Danaher is a leading industrial company that designs, manufactures, and markets innovative products, services, and technologies with strong brand names and significant market positions. Founded in 1994, headquartered in Washington, D.C., Danaher is listed on the NYSE and has 63,000 employees worldwide. ChemTreat is part of Danaher’s water quality group.

Benefits to OSU
• Experienced Field Service Engineers: Average 16 years of experience; Service representative stays in territory for his/her full career; No on the job training of new field representatives.
• Stability of Representatives: Lowest representative turnover rate in the industry; Territories staffed at accelerated rate to ensure quality service.
• Chemical Program Options: Green chemistry alternatives; Liquid and dry chemistry programs.
• Service/Quality: Program monitoring and data management; Cost savings programs for energy and water use reduction.
• Delivery Options: Green chemistry products shipped via UPS; Traditional chemistry shipped in drums or delivered via our hands off Neat Delivery program.
